

IRONPEAK FULL DISTANCE TRIATHLON

Executive Performance Report | 2019 Event

EXECUTIVE SUMMARY

The 2019 IronPeak Full Distance Triathlon achieved a strong 92.77% completion rate, while meaningful performance differences emerged across athlete segments, countries, and divisions.

KEY FINDINGS

92.77% Strong overall completion 2,258 / 2,434 completed	18.75% vs 3.42% Professional DNF 5× amateur DNF	650 vs 277 Market size vs. performance USA vs Germany	8.5 → 11.1 hrs Division performance gap Fastest vs slowest division
---	--	--	--

RECOMMENDATIONS

01 Review professional performance

Focus on race-stage patterns associated with the higher DNF rate.

02 Combine market size with performance

Evaluate country opportunities using both participation and performance.

03 Use division-level benchmarks

Incorporate division-level benchmarks into future planning.

SCOPE:

Single-event descriptive analysis of participant demographics, race performance, completion, and segmentation patterns.
